

YI-PIN HSU

Student

Proactive, worked in drink shop for one and half years, studied in Ming Chuan University International College Applied Computing.

In senior project I have worked as a project manager lead my team member to get first prize in APP invention competition. Furthermore, I have been a class leader for my whole university life.

I have strong learning ability in programming and guitar, during sophomore I started to learn guitar by myself and I approach fingerstyle level which the highest level in guitar in one year.
